EDUCATION

University of California, **Berkeley College of Letters and Science** *Expected Graduation: May 2028*
Major: B.S. in Economics, Environmental Economics and Policy
Coursework: Microeconomics, Macroeconomics, Econometrics, Comparative Political Science, Probability & Statistics

EXPERIENCE

Intrinsic Exchange group (IEG) **June 2026 – Present**
Project Intern / Analyst

- Produced due diligence research to inform investment decision-making by synthesizing natural capital accounting and ecosystem service valuation data to facilitate a multi-hundred-thousand-acre conservation financing restructure
- Supported the implementation of natural capital accounting as a financial valuation method for land, enabling conservation land to be reframed as a monetizable asset class, bridging economic output and large-scale environmental preservation
- Built working knowledge across capital structuring, ecosystem service valuation, natural capital markets, and institutional governance, applying financial and comparative analysis approaches uncommon in traditional finance

Kamehameha School Educational Endowment **May 2026 – August 2026**
Research Analyst

- Produced due diligence research to support investment evaluation in a regenerative land-based operation in Hawai'i, comparing capital costs and long-term returns across environmentally sustainable production and supply chain alternatives
- Evaluated the economic viability of environmentally sustainable production methods, as measured by quantified expected returns and downside risk, by underwriting a 15-year cost-comparison analysis across competing production scenarios
- Developed applied expertise across regenerative land management and sustainable production and supply chain strategy, applying financial and comparative analysis frameworks within an institutional endowment management context

World Economic Forum - Davos, Switzerland **January 2026**
Attendee as a Communications Analyst Intern with Nia Tero

- Attended the World Economic Forum as an analyst representing Nia Tero, observing and analyzing high-level discussions across government, finance, technology, and sustainability to identify emerging global themes and systemic challenges.
- Analyzed macroeconomic, geopolitical, and industry-specific discussions to identify emerging trends, policy implications, and cross-sector risks. Built analytical frameworks to assess long-term economic themes and systemic challenges in global markets

Matariki Group **May 2025 – August 2025**
Research Analyst

- Consulted project leads to collect, organize and analyze datasets on land use, environmental impact, and financial performance to create comprehensive qualitative and quantitative research and economic development models
- Engaged with academic experts, policy makers, and community leaders to facilitate knowledge exchange and refine actionable recommendations that advance equitable, Indigenous-led approaches to sustainable land management practices

University of California, Berkeley Division 1 Mens Water Polo **June 2023 – May 2025**
Student-Athlete - ***2023 NCAA Division I National Champion***

- Competed at the highest level of NCAA athletics, devoting 20-30 hours per week to training, strength and conditioning, film analysis, and travel while balancing demanding academic coursework with athletic excellence and personal development
- Collaborated closely with teammates and coaches to strengthen communication, refine tactical gameplans, and build team cohesion, contributing to consistent high-level performance during conference and national level competition.
- Developed resilience, discipline, and leadership through rigorous preparation and competition, maintaining focus and composure under pressure while demonstrating a commitment to team goals and the pursuit of a National Championship

La Morinda Water Polo Club **February 2025 – Present**
Youth Water Polo Coach

- Designed and led training sessions emphasizing skill development, teamwork, and discipline, adapting instruction to meet the unique development needs and experience levels of young athletes of athletes in a competitive environment
- Mentored and motivated young athletes to build confidence, accountability, and game intelligence, fostering a supportive team culture that encourages personal growth, resilience, and continuous improvement both in and out of the pool.

LEADERSHIP & ENGAGEMENT

Men's Water Polo Team Representative **June 2024 – May 2025**
Team Representative

- Served as a peer leader between teammates, coaching staff, and athletic administration, representing my class in program discussions, voicing team perspectives, and contributing to decisions that enhanced overall team culture and performance

Berkeley Pacific Islander Initiative **November 2024**
Member

- Collaborated with student leaders and campus organizations to strengthen Pacific Islander representation and visibility across UC Berkeley and the Bay Area, promoting equity and inclusion through community outreach, cross-cultural engagement initiatives, , and advocacy efforts that unified students around shared values of identity and belonging

Interests: Hiking, Cooking, Surfing, & Martial Arts
